## Plastic Caps: Cornerstone of the Harman Corporation Product Line

*Harman provides an expansive range of industrial grade, dip molded, and flexible vinyl plastic caps.*

**Rochester, MI—August 2, 2007**--Harman Corporation announces its newly expanded offering of vinyl plastic caps. Harman plastic caps are reliable, cost effective products available in a great range of diameters, lengths, colors, textures and chemical formulations.

A diverse range of customers uses Harman Corporation plastic caps, as both industrial aids and finished components on larger assemblies. As an industrial aid, plastic caps protect products from edge, thread, contaminant and transit damage. Additionally, they are used as masks for plating, painting and coating operations. The range of finished component applications is extremely broad including handle grips for levers, valves, hand tools and toys. Non-grip applications include hubcaps, post covers, corner or sharp edge covers, and packaging to prevent sharp bends in cable or high-pressure hoses.

Plastic Caps' diameters range from .062" – 5.500" standard, with molding capabilities up to 20" diameter and up to 24" long. Harman stocks over 100 current and custom color matched pigments, textures include high gloss, matte, textured and foam finishes. Specialty material formulations include high temperature resistant, FDA, anti-stat (ESD), copper non-staining and UL-94-V flame resistant.

### **About Harman Corporation**

Headquartered in Rochester, Michigan, Harman Corporation has been a manufacturer and global supplier of dip molded flexible vinyl products for nearly 50 years. Starting with the pioneering formulations and process equipment developed by our founder Jack Harman in the late 1950's and early 60's, Harman Corporation has been manufacturing in Rochester, MI since 1963. The company's product line includes plastic caps, grips and plugs; high temperature paint masks, custom dip molding and injection molding. A broad range of companies throughout the world finds value in Harman Corporation's experience, outstanding customer service and extensive capabilities. Harman Corporation provides free samples and quotations upon request through the company's web site, [www.harmancorp.com](http://www.harmancorp.com), or by emailing [sales@harmancorp.com](mailto:sales@harmancorp.com).
